

Camp Bosei

Camp Bosei has definitely been a “Camp of Dreams and Hope” for me. I would like to say *domo arigato gozaimasu* Yamaguchi san for inviting me to the camp, and also to all sensei who were there.

From the first day of working Haraguchi san on to the finish of the camp. Training with Professor Hashimoto and Professor Kashiwazaki, sensei Terasawa, Kotera, Asaka, Haraguchi and you sensei Yamaguchi.

I relearned the true comradeship and training of Judo as I learned under the tutelage of Judo under my sensei Riichiro Watanabe who took me under his wings in Yokosuka Japan.

Sensei Terasawa and Kotera along with the other sensei and students from Tokai University teaching me how *ashi waza*, *tachi waza*, and *ne waza* and how they superimpose each other to win the *Ippon!* Call.

The history of both Dr. Matsumae and Dr. Kano along with my understanding of Judo philosophy has helped me to progress and teach Kodokan Judo.

The friendship of Professors Hashimoto and Kashiwazaki showed me was very profound and helped me realize again that there are more than three walls and dimensions to understanding the philosophy of Judo.

Again thank you for letting me to become part of the Bosei Camp. I may never be able to experience Bosei again, but I would come again if invited. Sensei Yamaguchi *arigato gozaimasu!*
